*Initial case counts this morning were 120 cases with 12 of them active. However, case investigation revealed that two new cases belong to Franklin County. Benton-Franklin Health Department has been notified and the cases transferred to them.*

- Strain on emergency management logistics; frequent changes to resource ordering procedures. Charging for supplies will negatively impact our fire districts as they have limited funding.

- Starting to see shortages in the supply chain of disinfecting supplies.
- Increased call volume to DCH Environment Health division about PPE requirements at businesses.
- Washington National Guard deployment for support of food bank operations may be impacted by the WNG activation for civil unrest.
- Since there is no testing for people who are asymptomatic, they are required to self-isolate for 14-days if exposed to someone who is COVID-19 positive. This negatively impacts businesses starting to reopen. More testing capability needed.
- N-95 mask supply issues; shortage of masks and fit testing supplies; dental offices are reopening and need them, but they are Tier 2 in the PPE allocation guidelines.
